ФАБРИКА ИНДИВИДУАЛЬНОЙ МЕБЕЛИ

Каталог рисунков

декоративные стекла и зеркала
для вашего дома

Мебельная фабрика VEROOM предлагает услуги по декоративной обработке стеклянных и зеркальных поверхностей:

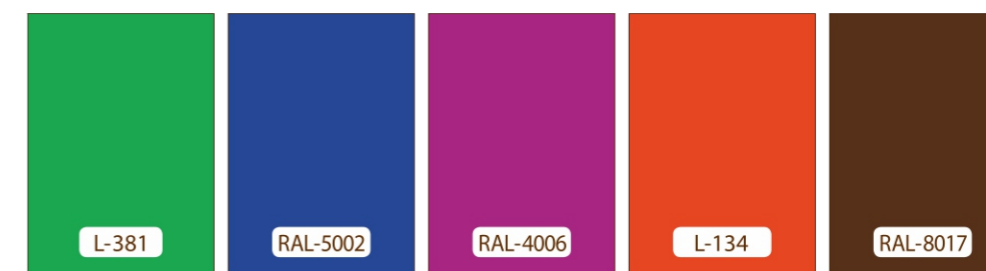

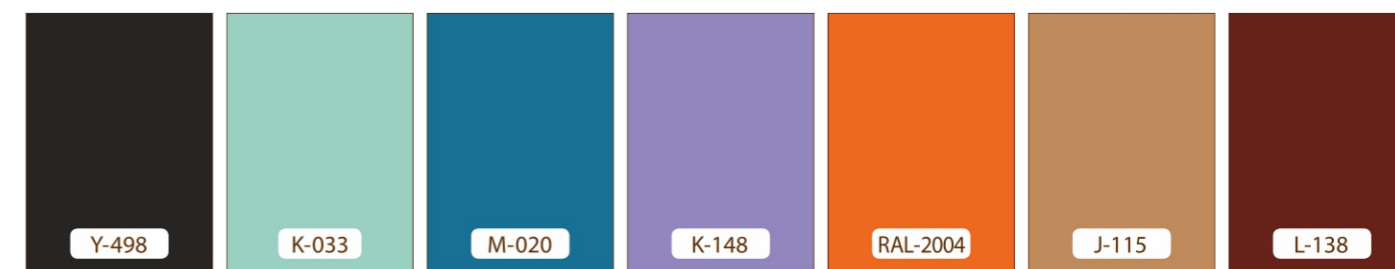

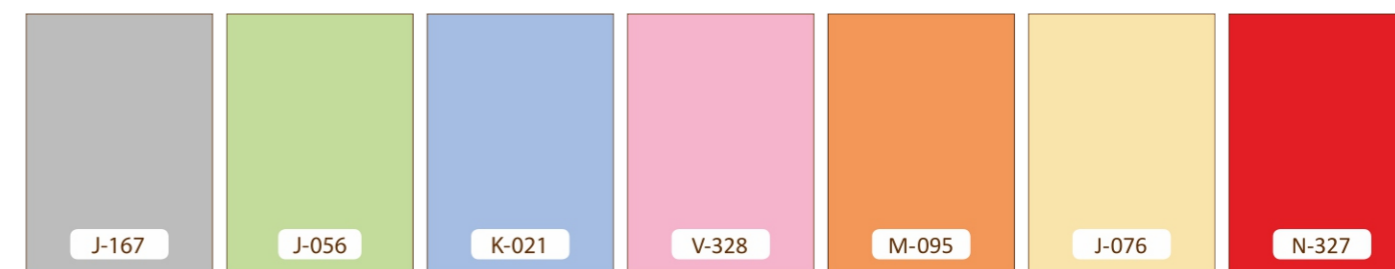

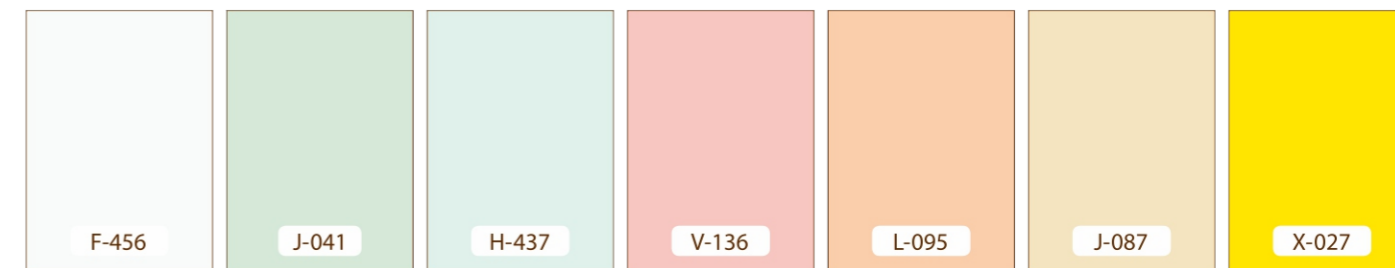

- **Сплошное или частичное матирование**
- **Художественное матирование** (использование пленочного шаблона, создающего желаемый рисунок)
- **Художественное матирование зеркала по амальгаме** (удаление зеркального слоя)
- **Двухслойное матирование** (двойная обработка одной поверхности)
- **Декорируя предметы своего интерьера, используйте художественную пескоструйную обработку**
 - с частичной покраской: прозрачное стекло можно сделать матовым, нанести на него любой узор
 - необходимого цвета
- Наш каталог рисунков можно использовать для создания контурных наливных витражей.

Пескоструйная обработка – это механическое воздействие частицами абразивного материала, направленного воздушной струей под большим давлением на поверхность стекла. Обработанные таким способом изделия, покрывают специальным составом, который защищает их от внешних воздействий и придает благородный вид.

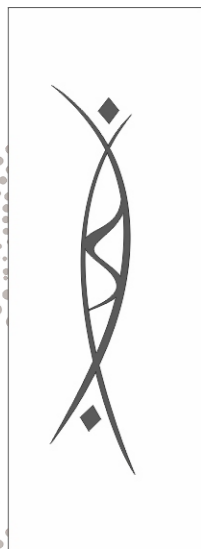

Такая технология часто применяется при оформлении зеркал, дверей-купе, офисных перегородок, декоративных панелей, витражей, стеклянных столешниц, потолков, элементов межкомнатных дверей, сувенирной продукции.

В фабрике VEROOM декорируют стекла и зеркала размером до 3000x1200 мм на собственном итальянском оборудовании, исполняя заказы в кратчайшие сроки.

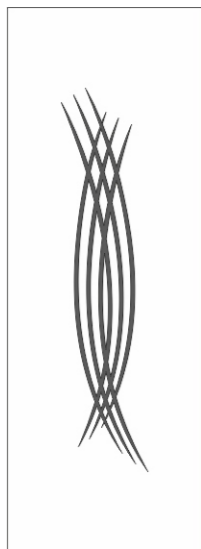

Так же мы оказываем услуги по распилу и кромлению плитных материалов, изготовлению фасадов из МДФ, занимаемся продажей мебельной фурнитуры, сборкой дверей для шкафов-купе «в размер».

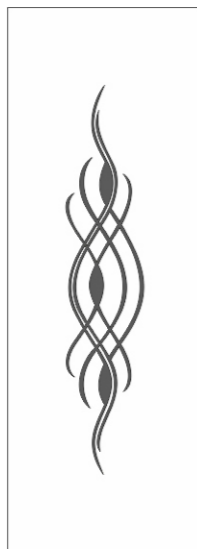

*оттенок необходимо уточнять по образцам покраски стекол
